“Joint Cultural Heritage - Source for Development of Entrepreneurship in the Black Sea Basin” eMS code BSB-371

Constanța County Council as Partnership Leader, together with Bulgarian Association for Transfer of Technology and Innovation from Bulgaria, Ungheni District Council from Republic of Moldova and Enez District Administration from Turkey, as Beneficiaries, have signed on 17th of September 2018 the Subsidy contract no. 103382 for project “**Joint Cultural Heritage - Source for Development of Entrepreneurship in the Black Sea Basin**” - TREASURE, eMS code BSB-371, financed with European funds under **Joint Operational Programme Black Sea Basin 2014-2020**, Priority 1 - Promote business and entrepreneurship within the Black Sea Basin, Specific Objective 1.1 - Jointly promote business and entrepreneurship in the tourism and cultural sectors, with a total value of **939,544.00 euro** (4,384,851.84 lei at InforEuro exchange rate for November 2018), of which Constanța County Council has a contribution of **27,287.52 euro** (127,350.85 lei at InforEuro exchange rate for November 2018).

The overall objective of the project is to jointly promote business and entrepreneurship in the tourism and culture sectors in the Black Sea Basin partner regions.

The implementation of this project aims to develop specific activities such as creating and endowing an infrastructure with research and museum exhibit equipment for the cultural, natural, underwater and classical heritage, so that, at the end of the project, the partners benefit from specialized equipment (eg diving and classic and digital exhibition equipment) in order to ensure a modern type of promotion (digital albums and maps, festival, site and a common event).

The project aims from the perspective of Constanța County Council activities to develop the infrastructure of the Museum of National History and Archeology Constanța, related to the submerged heritage, by equipping the underwater research laboratory with specific research equipment (wet suits, dry suits, diving computer, side scan, boat with peridoc, ROV - underwater vehicle, digital maps, motor vehicle, VR glasses, holographic projection device, project website, etc).

The project has an implementation period of 24 months.
